

Albert Dock - Proposed Works Alignment

Legend

Green Section

Low spot at 5.3m AOD.
 Raised to 6mAOD.
 1m high wall set back behind dock boundary fence.

The **Green Section** will tie into the existing 6m defence line. The new defence is along the dock boundary fence line while the existing section is along the Humber edge of the footpath. They will be connected using a ramp. The alignment of the ramp is tbc.

Blue Section

Low spot below 5.3m AOD.
 Raised to 6mAOD.
 1m high wall set back behind ABP boundary fence
 Substantial foundations maybe needed due to condition of revetment.

Yellow Section

Low spot 5.6m AOD.
 Raised to 6mAOD.
 300mm raise around Sheds - curb-like defence .
 300mm raise at Bullnose - encasing existing wave return wall in concrete.

Red Section

Low spot 5.7m AOD.
 Raised to 6mAOD.
 300mm raise - encasing existing wave return wall in concrete.

Ramp tie of new and existing defence line. tbc.
